CORE COMPETENCIES:

Preventing the spread of infection through science based high level disinfection

We target and utilize specialized disinfecting products for high-risk biological emergencies.

We offer solutions for the interior and exterior of buildings, as well as vehicles and high-traffic stationary outdoor venues. Our capabilities include services to a wide-range of sites, from busy MTA stations, Public Schools, Children Playgrounds. All of our methods are representative of the best practices currently being used around the world in accordance with the strict guidelines prescribed by the Center for Disease Control (CDC).
